Public Hearings: Koeberg Long Term Operations

The National Nuclear Regulator is South Africa's nuclear safety watchdog. It is responsible for regulating the nuclear industry in South Africa to protect people and the environment from the risks of radiation associated with nuclear power plants, nuclear technology, radioactive waste and naturally occurring radioactive materials. Eskom is authorised by the NNR to operate the Koeberg nuclear power station.

Members of the public are encouraged to attend the public hearings on health, safety and environment connected with Koeberg Long Term Operations application.

**Tuesday, 4 June 2024
10:30 - 14:30
Northern Cape
Concordia Community Hall
Nama-Khoi Local Municipality**

Openbare verhore:

Koeberg Langtermyn-bedryf

Die Nasionale Kernkrag-reguleerder is die kernkrag veiligheidswaghond. Dit is verantwoordelik vir die regulering van die kernkrag-industrie in Suid-Afrika om die mense en die omgewing te beskerm teen bestraling wat verband hou met kernkragstasies, kernkrag-tegnologie, radioaktiewe afval en radioaktiewe materiaal wat natuurlik voorkom. Eskom is deur die Nasionale Kernkrag-reguleerder goedgekeur om die Koeberg kernkragstasie te bedryf.

Lede van die publiek word aangemoedig om die openbare verhore rakende gesondheid, veiligheid en omgewing wat verband hou met die Koeberg Langtermyn bedryf aansoek by te woon.

Dinsdag, 4 Junie 2024
10:30 - 14:30
Noord-Kaap
Concordia Gemeenskapsaal
Nama-Khoi Plaaslike Munisipaliteit
